

Environment Policy

Dream Nepal Travel & Tours

Dream Nepal is a socially aware travel company, which endows with as much dedication to the society as it does to its true service. We promote responsible travel to natural areas that conserves the environment and improves the well being of local people.

ENERGY MANAGEMENT

- We aim to conserve and reduce our energy consumption through improving management systems and using equipment with lower energy use
- We switch off all the lights after office hours
- We use low power consumption bulbs (compact fluorescent light)
- We switch off all our equipment after office hours

WATER USE MANAGEMENT

- We minimise water use wherever possible to save the cost
- We regularly check up with the piping system for water leakages
- We have implemented rainwater harvest

WASTE & PAPER MANAGEMENT

- We recycle ink and toner cartridges
- We try to reduce paper consumption and keep waste to a minimum by using e-mail where appropriate, rather than faxing or writing. We use both sides of the papers for printing when required and send e-cards instead of buying paper cards
- We reduce usage of paper for printing of literature; instead we use our website to communicate
- Our (paper) promotional materials are only renewed every four years
- For all our purchases we, where possible, buy in bulk to reduce the amount of packaging materials
- We aim to avoid using plastic bottles
