

TRIP ITINERARY

CHITLANG

Small Introduction

During the stay you will be able to feel what it is like to live the life of a Nepali villager. Walk with your family while they go about their daily chores, tending animals, tilling the fields, going to school with the children, or just sitting in the sun talking with neighbours.

Feel free to wander safely by yourself and look at developments that the community have supported and funded: the village school, primary health center, and the agricultural and forest plantation. And, at the end of your stay, you will be overwhelmed by the farewell that your new family will give you. If you never come this way again the village and its people will remain in your heart forever.
